

California OES Weather Threat Briefing

Sunday, January 16, 2022
9:00 AM PST

Day 1 (Sunday): No significant or widespread weather concerns are expected today or tonight, though some locally dense fog is likely across the Central Valley.

National Weather Service

*Western Region Headquarters
Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

01/16/22 - 01/22/22

Sunday - Saturday

- Some areas of dense fog will be noted across portions of the Central Valley through late Sunday morning, redeveloping once again the next few nights. Visibility will be locally reduced to only a few hundred feet, with impacts to travel possible at times.
- Scattered very light showers are expected across the southern half of the state later tonight into Tuesday morning, with rainfall amounts less than one-tenth of an inch. No significant impacts are anticipated.
- Otherwise, mainly dry and mild weather will be present for much of the state through the coming week
